- Notes: 1 The numbers in the sample to which the estimates in this table relate are given in table 124 for gross weekly earnings and table 125 for gross hourly earnings. Those tables also give the corresponding averages (means).
- 2 Results are only given for age-groups where the estimates of average gross weekly and hourly earnings are based on sample sizes of at least 50 and have standard errors of not more than 4.0 per cent of the average.

- Notes: 1 The numbers in the sample to which the estimates in this table relate are given in table 124 for weekly earnings and table 125 for hourly earnings. The corresponding averages (means) of hourly earnings are given in tables 10 and 11 (for males and females respectively) in Part A. The corresponding averages (means) of weekly earnings can be derived from these tables, by subtracting average overtime earnings from average gross earnings.
- 2 Results are only given for age-groups represented by at least 50 persons in the sample and where the estimate of average gross weekly earnings has a standard error of not more than 4.0 per cent of the average.
